4058 Smith Laboratory  
(614) 247-7426

Autumn 2010  
MW 12:30-2:18  
4094 Smith Laboratory

Office hours: R 9-12 or by appointment

## **COURSE DESCRIPTION**

The primary focus of this course is on hands-on student research activities. Instead of attempting to survey the vast literature on ethnographic fieldwork, we focus on a selection of methods that are central to much anthropological fieldwork – participant observation, writing fieldnotes, semi-structured interviews, surveys, freelists, pile-sorts, and rankings. Other techniques and issues will be incorporated as they emerge from the course project. In addition to data-gathering methods, you will also learn and experiment with quantitative and qualitative data analyses. And because methods are meaningless if they are not part of a well thought through research design, you will also learn how to design a research project and write it up in a research proposal. This course is highly recommended for all honors students who are considering doing social science research for an honors thesis.

You will learn to design a study and be trained in different research methods by participating in a collaborative research project. In this collaborative research project we will as a class design a study, collect data, analyze data, and write up the results in a report.

This course will be taught as a seminar. This means that students share responsibility for the success of the course and have to come to class prepared, i.e., having read and reflected on the readings. You also have to bring the readings to class for discussions.

## **DISABILITY SERVICES**

Any student who feels s/he may need an accommodation based on the impact of a disability should contact me privately to discuss your specific needs. Please contact the Office for Disability Services at 614-292-3307 in room 150 Pomerene Hall to coordinate reasonable accommodations for students with documented disabilities.

## **LEARNING OUTCOMES**

You will learn how to study human behavior using ethnographic methods through participation in a collaborative research project. You will also learn how to design your own study.

## REQUIRED READING

The following books are required reading and available in the OSU Book Store or through online booksellers like Amazon.com. Additional required and recommended readings will be made available through Carmen.

Bernard, H. Russell

2006 Research methods in anthropology: qualitative and quantitative approaches. Fourth edition. Walnut Creek (CA): Altamira Press.

Galman, Sally Campbell

2007 Shane, The Lone Ethnographer: A Beginner's Guide to Ethnography. Lanham (MD): Altamira Press.

## COURSE REQUIREMENTS AND EVALUATION

**Attendance and participation:** You are expected to be actively engaged in class; that is, coming to class prepared, paying attention, and contributing to discussions and problem solving, both by making comments and by facilitating other people's participation. Because it is difficult to do well in the course if sessions are missed *attendance at every class meeting is required*. Late arrival and early departure are considered poor participation; they are disruptive to others and make it likely to miss essential information. Please contact me if there is an emergency situation. If you are ill and must miss a class, you are responsible for getting the notes and assignment information from your classmates.

**Readings:** You are expected to have read the assigned readings once or twice before you come to class. As you read, highlight, take notes, summarize, look up new words or concepts, and come with questions for me and/or your classmates. In short, be prepared to discuss the readings in class and bring the readings to class. I also recommend you to go over the readings once more after class.

**Course project:** You will learn to design a study and train in different research methods by participating in a hands-on collaborative research project. The course project in Autumn 2010 will examine students' use of the recently renovated Thompson Library. Architects and librarians have put much thought into the design of the different study, work and meeting spaces in the new library. However, the way students use, perceive, and even modify spaces in the library may or may not have been planned by the architects and/or librarians. To study students' use of the library we will use a wide range of different ethnographic methods, including participant observations and semi-structured interviews with students, librarians, and architects. We will write up the results and present them to the director of the OSU libraries.

**Research Proposal:** You will design and write one proposal for your own research project (real or imaginary). The proposal is divided in five parts: introduction, objectives, population and sample, methods, and analysis. The sections are due over the course of the quarter (see schedule below). You will receive detailed

instructions on what to cover in each section. The complete research proposal, including an IRB application (for exemption, expedited or full review), is due in finals week. All sections have to be put on your wiki page. I recommend that you continuously revise and update your proposal as you develop your research proposal over the course of the quarter.

**Evaluation:** Course responsibilities will be weighted in the following way:

Attendance and participation	15%
Thompson Library project assignment (10)	50%
Research Proposal assignment (5)	15%
Research proposal	20%
Total	100%

Final grades are based on the OSU Standard Scheme. A general guide to how you are doing is: A 93; A- 90-92; B+ 87-89; B 83-86; B- 80-82; C+ 77-79; C 73-76; C- 70-72; D+ 67-69; D 60-66; E < 60.

**Academic Misconduct:** All students should become familiar with the rules governing academic misconduct (e.g., cheating, plagiarism). Ignorance of these rules is not an acceptable defense. Anyone violating said rules will be reported to the Board of Academic Misconduct. If you have any questions, please see me.

### **Special notes from the instructor:**

- Only in cases of properly documented illness or personal emergency will late assignments be accepted. Late assignments will progressively lose value and will be evaluated and returned as time allows.
- We use a wiki for the course project (<https://anthropologyH650.wikidot.com>). I will email an invitation to join the wiki to your OSU email address.
- I use Carmen to post information for the class (e.g., syllabus, cancelled office hours, changes in reading assignments). Check it regularly.

## **SCHEDULE AND TOPICS<sup>1</sup>**

- *TL assignment* = Thompson Library project assignment (always due Wednesday)
- △ *RP assignment* = Research Proposal assignment (always due Monday)

### **WEEK 0: INTRODUCTION**

September 22: Introduction to course, project, wiki, and citi  
Read: AAA Code of Ethics, AAA Statement on IRB (2004), Galman (2007)

### **WEEK 1: ETHNOGRAPHIC RESEARCH**

September 27: What is ethnographic research?  
Read: Agar (2006), Henrich et al. (2010), O'Reilly (2009:1-4, 104-109)  
• *Complete CITI test and bring hard copy of certificate to class*

---

<sup>1</sup> Please note that this is a tentative schedule and that the instructor reserves the right to make changes.

September 29: Course project  
Read: Bernard (2006:28-68), Waters (2008)  
• *TL assignment due: literature*

## **WEEK 2: RESEARCH DESIGN**

October 4: Research design and research strategies  
Read: Johnson (1998:131-167), Bernard (2006:69-95)  
 $\Delta$  *RP assignment due: introduction*

October 6: Course project  
Read: Bernard (2006:109-145), Cliggett (2005:23-46)  
• *TL assignment due: objectives*

## **WEEK 3: PARTICIPANT OBSERVATION**

October 11: Sampling and participant observation  
Read: Spradley (1980:63-84), Bernard (2006:146-168, 186-209)  
 $\Delta$  *RP assignment due: objectives*

October 13: Course project  
Read: Bernard (2006:342-386, 413-450)  
• *TL assignment due: research design*

## **WEEK 4: FIELDNOTES**

October 18: How to write fieldnotes  
Read: Emerson (1995:66-107), Ottenberg (1990:139-160)

October 20: Course project  
Read: Bernard (2006:387-412)  
• *TL assignment due: observations*

## **WEEK 5: UNSTRUCTURED & SEMI-STRUCTURED INTERVIEWS**

October 25: Unstructured and semi-structured interviews  
Read: Spradley (1979:55-91), Bernard (2006:210-250)  
 $\Delta$  *RP assignment due: population and sample*

October 27: Course project  
Read: O'Reilly (2009:70-77)  
• *TL assignment due: fieldnotes*

## **WEEK 6: QUALITATIVE DATA ANALYSIS**

November 1: Grounded theory  
Read: Charmaz (2001), Bernard (2006:451-521), O'Reilly (2009:13-17)

November 3: Course project: transcription, coding and memoing  
Read: O'Reilly (2009:92-98, 118-124), Bernard (2006:522-548)  
• *TL assignment due: semi-structured interviews*

## **WEEK 7: STRUCTURED INTERVIEWS**

November 8: Surveys

Read: Bernard (2006:251-298)

November 10: Course project: creating theory

Read: Bernard (2006:318-341)

- *TL assignment due: qualitative data analysis*

## **WEEK 8: FORMAL METHODS**

November 15: Free-lists, pile-sorts, and rankings

Read: Bernard (2006:299-317), Weller & Romney (1988:6-20)

$\Delta$  *RP assignment due: methods*

November 17: Course project: data management

- *TL assignment due: structured interviews*

Read: Flinn (1998:85-96)

## **WEEK 9: QUANTITATIVE DATA ANALYSIS**

November 22: Data management and statistical analysis

Read: Bernard (2006:549-593)

November 24: Course project: using ANTHROPAC and SYSTAT

- *TL assignment due: free-lists*

Read: Bernard (2006:594-648)

## **WEEK 10: WRITING UP RESEARCH**

November 29: Writing ethnographically

Read: Hess (1999), Emerson et al. (1995: 169-210)

$\Delta$  *RP assignment due: data analysis*

December 1: Course project: making a poster

- *TL assignment due: quantitative data analysis*

Read: Galman (2007), O'Reilly (2009:227-232)

## **FINALS WEEK**

- *Final version of the research proposal is due*
